

UNEXPECTED DEATH OF A CHILD AT A SERVICE POLICY

The unexpected death of a child at a Service is a traumatic event and the impact on educators, children and families can cause emotional turmoil, which can overwhelm usual coping skills. A policy providing comprehensive procedures is therefore crucial to ensure a coordinated response and ensure the mandatory reporting requirements to the regulatory authorities are followed.

As a result of the suddenness of such an event, well-trained and experienced staff can experience strong emotions and traumatic stress responses. The role of our Service is to help restore a sense of safety for all children, educators, and families as soon as possible following a traumatic event.
